JOSHUA LEDERBERG

PRESIDENT

February 19, 1980

Mr. Wayne C. Jaeschke
Vice President
Environmental Services
Stauffer Chemical Company
Westport, Connecticut 06880

Dear Mr. Jaeschke:

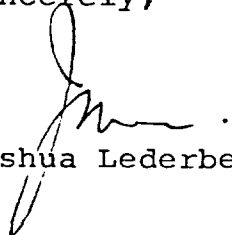

Before expressing our appreciation for Stauffer's grant in support of the Life Sciences and Public Policy Program, I want to tell you how much my colleagues and I appreciated the opportunity to meet recently with you, Dr. Mickley, and your associates at the company's Westport headquarters. I found it a most helpful session and very much enjoyed our discussion on a wide range of issues of mutual interest and concern.

We are pleased that Stauffer has become a partner in supporting the Life Sciences and Public Policy Program and it was thoughtful of you to present me with the check following our luncheon. We are encouraged by indications of continuing progress in the development of the program and look forward to Bill Lowrance's arrival this summer.

I regret that it will not be possible for me to attend my first meeting of the CIIT Board on March 5 but as Pat Garvey indicated on the phone, I must participate in a particularly important all-day meeting on the campus that day. We are arranging to take advantage of your kind offer to have someone from the University stand in for me on this occasion.

Our thanks again for your interest and support.

Sincerely,

Joshua Lederberg
